About ISTWOODTRADE company

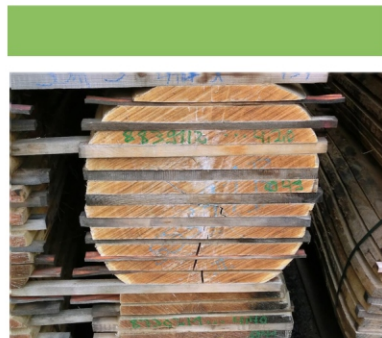

Our company has been manufacturing and selling wood products for 20 years.

We produce and export timber all over the world. Our main markets are Europe and Asia.

Having huge experience, and attention to every client, we supply our timber products to large manufacturers, also we cooperate with traders and we are friends with woodworking associations from all around the world.

Our company will deliver your order by land or by sea.

ISTWOODTRADE sawmills are located in Svudivok and Balakleya villages (Cherkassy region).
Kiln Drying facilities in Vatutino (Cherkassy region).

Logs cutting are made by workers with huge experience.

Because of professionalism of workers our factory is productive and efficient. We provide products of premium quality.

We use special techniques for oak drying: before KD chamber we always do seasonal drying. In this way oak timber has excellent color and structure.

We always check humidity during drying process.

THE LIST OF OUR PRODUCTS:

- Unedged boards KD, AD. Thickness 30mm, 50mm
Length up to 3 m
Width from bark to bark 15cm up, usually 25-30 cm
Species: oak, ash, maple, alder
- Edged, uncalibrated by width boards, KD, AD.
Species: oak, ash, maple, alder
- Strips made from oak, ash, maple, alder. Sizes according to the client's specification.

WE OFFER YOU TWO TYPES OF EDGED BOARDS:

- Edged, uncalibrated by width boards
- Edged, calibrated by width boards, Sizes according to the client's specification.

Thickness: 28mm, 50mm

Width: when thickness is 28 mm – 70-400mm, when thickness is 50 mm – 100-400mm

Length – up to 3m

Благодаря специальной технологии сушки
наша обрезная доска остается ровной и не трескается

**BECAUSE OF SPECIAL DRYING TECHNIQUES
OUR EDGED BOARDS ARE STRAIGHT AND WITHOUT CRACKS.**

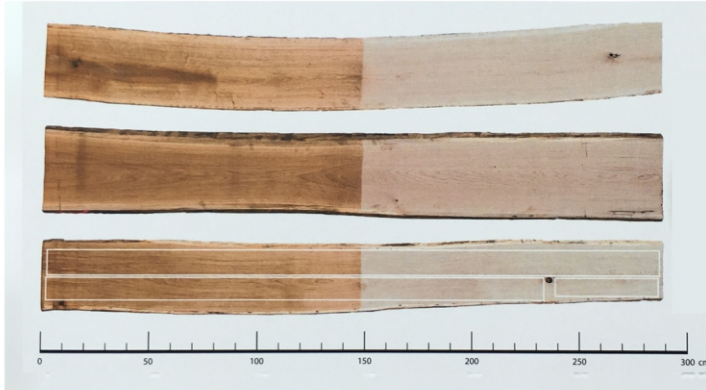

Edged boards grades: calibrated by width boards supplied according to client's specification.

Uncalibrated by width boards we supply in MIX grades.

We export our timber all around the world, and know that timber grades are not the same in different countries. But it's not a problem for us:
WE ALWAYS DISCUSS ALL DEMANDS INDIVIDUALLY WITH EVERY CLIENT

WE DIVIDE OUR TIMBER IN SUCH GRADES:

Grade PLUS (Grade 1, Grade A)

Clear from defects from both sides
No core, color change,
only small live knot up to 5mm is allowed

Grade STANDART (Grade 2, Grade AB)

Live, sound knots up to 20mm are allowed, 3 knots up to 30mm, 2 knots up to 40mm.

If there is a core, reduction is made.

Rustic Grade (Grade B, or Grade 3)

Knots up to 80mm are allowed, sound knots, tobacco knots up to 60mm.

Detailed description of our grades you can check on our website.
